

# Diving in Dahab

Facebook Group: Adventure Spot Dahab

Come dive with us!

We will show you all the secret places around Dahab where it will be just the fish and us.

Dahab located on the beautiful Sinai Peninsula metres away from the fascinating underwater world of the Red Sea.

We offer professional scuba training ranging from beginners, including children, to Dive Masters. Even if you have never dived before, you will experience an unforgettable time with us.

As we are aware how sensitive your first encounter with the underwater world can be, we pay special attention to introduce you to this new experience in a safe and enjoyable way. During the Intro dive you will be accompanied and guided by a PADI qualified Instructor all along the way. If you liked your first dive (and we are sure you will!) then we encourage you to continue training and dive certification by taking more courses with us.

When you dive with us we provide you with all the services you need to enjoy a wonderful time in Dahab. As well as diving, we can arrange safari trips, accomodation, all transportation including to and from airport to the hotel, recommend local restaurants serving Egyptian food and tell you where the hot-spots are for exciting nightlife!

By the end of your time here with us at AdventureSpot you will have created some life-long memories, met some really great people and made friends along the way.
